## About Our Club

Most people see a fallen tree and think firewood. Wood turners see the things they can make -- pens, bowls, platters, vessels, boxes and beautiful objects that can only be categorized as 'art.'

The Bay Area Woodturners Association is an educational, non-profit organization with over 90 members from throughout the East Bay. Our club is open to everyone with an interest in wood turning - men, women, students, observers, beginners and serious turners. Monthly meetings are open to the public. Our meetings feature excellent wood turning demonstrations by professional turners and nationally known artists and club members, a show and tell of members' recent work and a wood raffle. Club members also enjoy an extensive lending library of turning videos, books and periodicals, a club store full of wood turning supplies, and discounted wood buying opportunities. The Bay Area Woodturners Association is a good place to learn wood turning and a good place to make new friends.

The Bay Area Woodturners Association is a local chapter of the American Association of Woodturners, which has over 9,000 members and 173 chapters, nationally.
